

Peter is an environmental expert with over 11 years' experience, having worked in a municipal sewage treatment plant, an ICT industry and Brand factory, prior to joining UL in 2010, as Senior Engineer. He is the qualified RBA labor ethics & EHS lead auditor, ISO14001 & OHSAS 18001 internal auditor, amfori BEPI environment assessor and chemical auditor, Higg FEM chemical verifier and ZDHC chemical course trainer. He has conducted over 500 social compliance, C-TPAT and environmental audits, including wastewater treatment plants and Detox auditing. Within UL, his main responsibility is to take in charge of the environment audit program including BEPI / HIGG / Detox, and increase auditors' technical capacity within the field of environmental health and safety (EHS) by providing regular training. He has conducted over 20 external environment/chemical trainings to brand/factory. He has a Bachelor of Environmental Engineering from Hunan University. Peter's native tongue is Chinese and he is business-proficient English.
